When the next page (with red arrow) is click, it goes to the page below:

Index of /kyd/products

- [Parent Directory](#)
- [purplestuff.htm](#)
- [purplestuff.php](#)

which is not supposed to. It supposed to go to the right folder where all the images are located. Basically the next page is going to another folder. Please help I need this to work before Monday. Thank you.
